

**Ballard Little League
batting helmet face guard waiver**

Ballard Little League provides and encourages all players to wear a helmet equipped with a face guard when batting and on base. Players at the AAA and Majors level have the option of wearing a helmet that does not include a face guard. If a player chooses to use a helmet without a face guard, there is an increased likelihood of that player sustaining serious injury if hit in the face by a thrown or batted ball.

I hereby give permission for my player to use a helmet without a face guard and in so doing, release Ballard Little League from any liability relating to injuries sustained from a thrown or batted ball.
